about us

Since 2010, Schematech has been at the cutting edge of architectural glass hardware. We have a strong focus on developing new products and as a testament to our innovation, we boast one of the most diverse and unique inventories in our field.

Our efforts are guided by the following three principles:

VALUE

Providing our customers with the products they need at a good price is just the beginning. By choosing to deal with us, our customers should receive extra value. To this end, we offer technical support, training and software aimed at making the jobs of our customers easier.

SERVICE

Prompt delivery isn't enough. By choosing to deal with us, our customers have earned a partner that goes the extra mile. In this spirit, we respond to our customers' needs irrespective of what we have in stock.

QUALITY

Reliability is a given. By choosing to deal with us, our customers deserve attention to detail. That is why we worry about the small things like superior fixings and high-grade gaskets.

COMPONENTS

Specifications

- Glass Thickness: 8 - 10mm
- Max Door Height: 8mm Glass: 2.4m
10mm Glass: 3m
- Third Hinges required at 2.4m high
- Top Hung rollers
- Floor Track Options: Recessed U-Channel
Step Down Track
- Finish: Tracks: Mill
Hardware: Natural, Charcoal, Bronze & Black Powder Coat
- Material: Aluminium
- Max recommended leaves stacked to one side: 7
- Leading door can operate independently
- Slide bolt locking mechanism
- Not intended to be used for primary barrier
- Weather resistant but not weather proof

smart shopfront

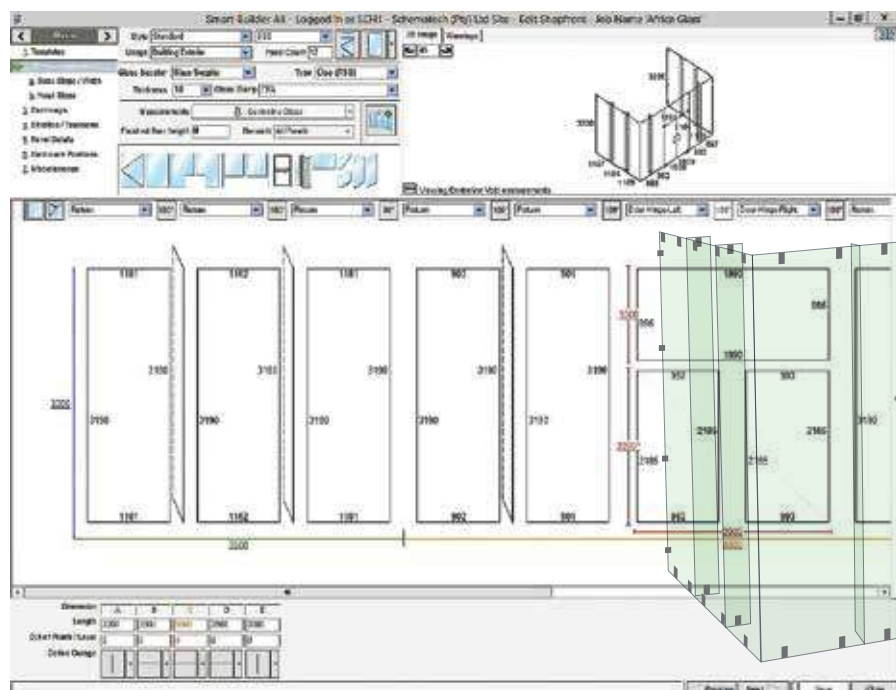

TECHNICAL SOFTWARE

Smart-Shopfront offers a complete design system for frameless glass shopfronts and internal partitions. The beauty is how flexible and responsive it is.

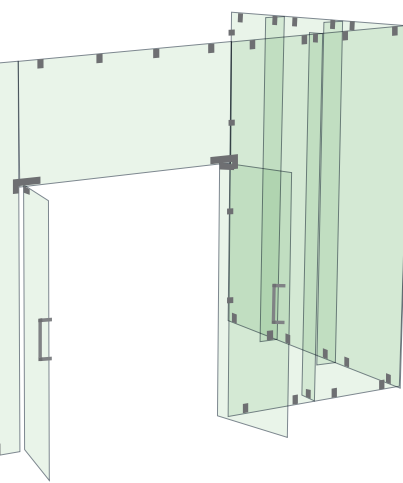

A full range of hardware and architectural features are supported including patch, rail and side hinged doors, sliding doors, fins, transoms, curved glass, nib walls, notches, corners and rakes. Because Smart-Shopfront is flexible, it automatically recalculates the hardware and glass requirements as you change your design details.

Features

- Smart-Shopfront hardware is automatically rebuilt in response to any changes you make.
- Multiple entrance ways can be entered into a single design.
- Glass orders can automatically reference and attach template drawings for complex cut-outs.
- You can easily build a library of completed shop fronts to copy and modify for ultrafast design.
- Available as standalone, networked or on the internet.

**Save costs
Gain control**

Key benefits of SMART-SHOPFRONT and SMART-BUILDER SOFTWARE

- Speed of quoting • Compatible hardware • Save on glass • Record keeping • Attractive 3D drawing • Easy installation

smart balustrade

TECHNICAL SOFTWARE

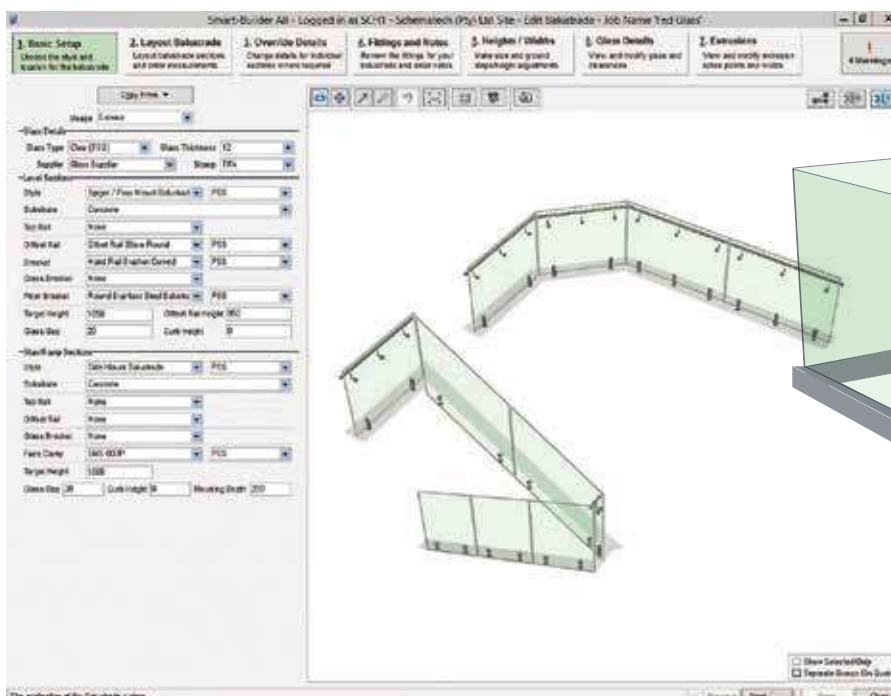

Want to change the balustrade layout or style? Smart-Balustrade will automatically recalculate hardware requirements and glass details for you.

Smart-Balustrade supports a wide range of balustrade hardware styles including base channel, forks, face clamps and post support systems with top caps, offset hand rails or both.

Features

- Change quote details with the touch of a button.
- Automatic pricing of glass.
- Wide range of detail options for railing and mounting.
- Custom laminate can be specified for glass infills.
- Balustrades can be displayed as plan views, in full colour 3D or in outline 3D.
- Available as standalone, networked or on the internet.

**Increase sales
Improve efficiency**

made to measure

TECHNICAL SOFTWARE

Schematech's technical software program, "Made to Measure" makes each step in manufacturing a custom shower fast and professional.

Among other technical features Made to Measure is capable of handling the following:

- Out-of-square walls
- Nib-walls
- Up-stands
- Over-bath enclosures
- Top-lights
- Overhangs
- Inconsistent floor levels

Safety First

Made to Measure checks each shower design automatically and makes suggestions based on broadly accepted industry safety standards.

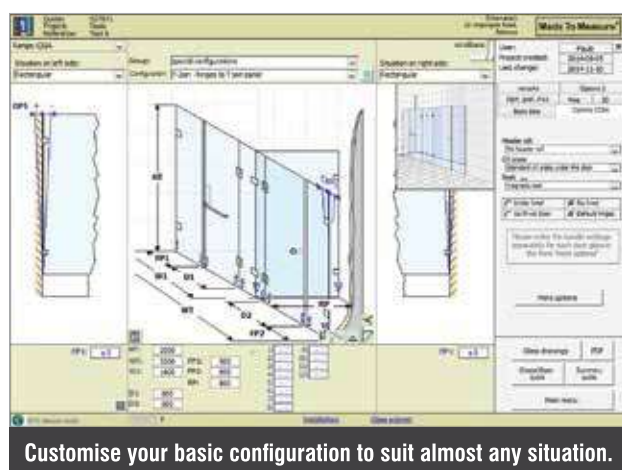

Contact us to find out how buying your glass or hardware from participating companies can qualify you to get all our software for free!

With the made to measure software you can:

Design even the most difficult of shower enclosures

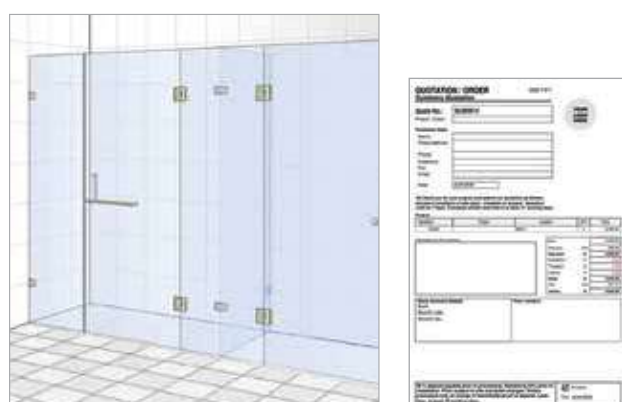

- Choose a hardware range from an existing supplier or define your own.
- Use our extensive library of shower configurations as a starting point.
- Customise your basic configuration to suit almost any on-site requirement.

Provide customers with deal-clinching proposals

- Automatically generate professional and accurate quotations.
- Include to-scale 3D-renderings of your shower designs.
- **Impress customers with detailed specification pages.**

To scale 3D-rendering automatically appends to the customer quotation.

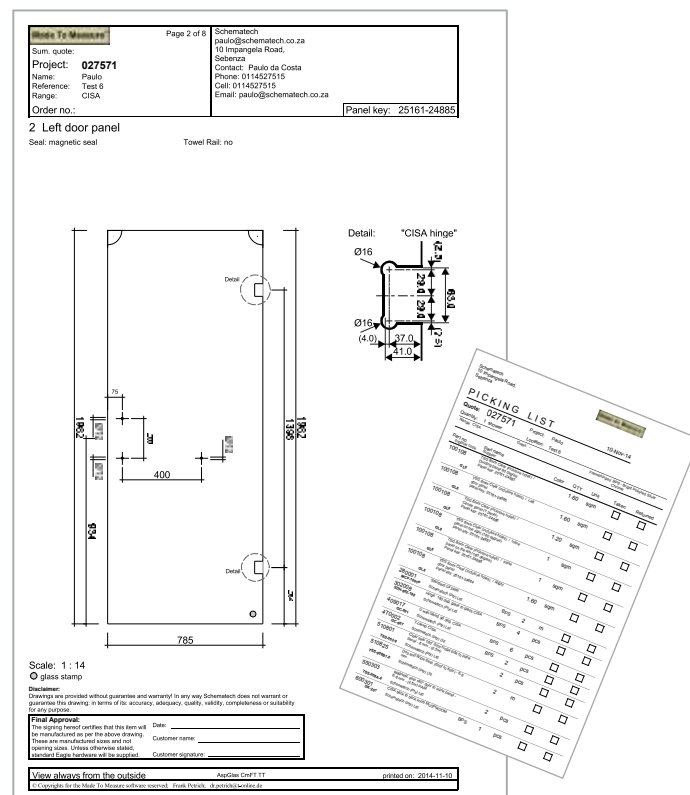

Gain keen insights into your business

- A full-featured workflow module helps you keep track of procurement and installation.
- Built-in sales reports break down every aspect of a sales representative's performance.
- Full Pastel integration allows for accurate financial reporting at the project level.

Compile technical drawings and parts lists in an instant!

- Send exact glass drawings to glass tougheners straight from Made to Measure in either PDF or DXF.
- Export technical drawings to CAD.
- Rely on manufacturer defaults or use editable parameters to tightly control the deductions applied to glass drawings.
- Prepare your purchase orders and send as per your own supplier designation.
- Make use of our picking list to break down where each part is used in the construction of your enclosure.
